

## ADJUSTABLE ROOF BRACKETS

### ADJUSTABLE ROOF BRACKET #19038

- User-friendly adjustable roof bracket adjusts to 33°, 45°, 60°, and 90° angles to fit multiple pitches
- Can be used with 2x6", 2x8", or 2x10" planks
- Can also be used with 2x12" planks at 33° or 45°
- Features a nail hole in step to secure the plank, four long slots for added safety and convenience, a rib in the stem to eliminate flexing and a flat heel
- Can be used as a standard residential roof bracket or for commercial applications as a slide guide

### OFFSET ROOF BRACKET #19700

- Johnny Jack's patent pending design provides a better platform for staging materials on steep slope roofing installations
- Designed to stage materials on architectural roofing including the new metal shingles, slate, tile or asphalt while never covering the anchor screws
- Save time, save labor, less damage

### ADJUSTABLE GALVANIZED ROOF BRACKET #19600

- Slater's Bracket
- Heavy-duty roof bracket adjusts and locks in six positions
- Accommodates roof pitches from 3/12 to 10/12
- Galvanized steel construction for extra strength, safety and durability
- Easy to set up, operate, reposition and remove without damage
- Folds flat for compact storage
- Capacity = one worker plus 40lbs. of material every 4 feet
- Complies with OSHA regulations
