

21000 X WARNING-LINE LIGHTWEIGHT SYSTEM

X WARNING-LINE LIGHTWEIGHT # 21000

- Quick set up and take down
- Reusable and easy to store
- Lightweight and easy to carry
- Secure with screws or 20lbs of ballast
- Complies with OSHA regulations
- Creates safety perimeters on commercial roofs
- Works for ground applications as well
- 42" Posts for high visibility
- Set of four includes 130' of warning flags
- Powder coated safety yellow
- Made in America

Designed for contractors the X-Warning-line Lightweight system is designed to be easy to carry and secured with jobsite material. Working on both roof and ground applications, the all-steel X-Warning lines set up fast. Open the base, install the post, wrap the warning line, and add a sandbag or cinder block for weight! The X-Warning line model #21000 ships in sets of 4 which include 130 feet of flagged warning line.
