**#12060 Universal Guard Rail System**

*Unique  
3-Part  
System  
metal  
roof  
solution!*

This month marks the second anniversary for the #12060 Universal Guard Rail system. The 3-part system is specifically designed for metal roofs. The base is secured to the building's structural frame, then the removeable foot and guard rail post are attached. Later, during take down, the plate can remain attached to the building (permanently when required) saving take down time and labor!
