Warning: Failure to follow instructions for the use of this product can result in serious personal injury.

11710 Ladder Stand-Off Instructions:

General: 1) Always follow ladder regulations and use fall protection in accordance with local, state and federal OSHA regulations.

Mounting the 11710: 1) Hook ladder stand-off over ladder rung at a maximum height of 3 rungs from the top of ladder. 2) Loop safety chain around second rung above ladder stand-off. 3) Tighten securely and clip in place. 4) Adjust spacing away from surface with 2 thumb screws (adjusts from 22" to 29").

Instructions for Use of 11710: 1) Raise ladder and position stand off on solid surface or so that it sits centered on a corner. 2) Weight of person on ladder will cause stand-off to lock on rung and gunnels. 3) Do not stand above ladder stand-off because possible ladder kick-out may occur!

Care and Maintenance of 11710: 1) Inspect all equipment before and after each use to be sure that there is no damage or deformation to any of the equipment. 2) Inspect to be sure there is no deterioration as a result of rusting. Discard if necessary. 3) Always handle the equipment with care to ensure safe and lasting use. 4) Do not throw or drop any equipment from height. 5) Do not use if exposed to extreme heat or cold. Discard at once. 6) Do not use if wet or frozen.
